COMMUNIST SANCTUARY EXPOSED

Exploitation Of Professions Laid To Jew Influence

SPECIAL—A survey recently conducted by FORTUNE magazine reveals the startling fact that certain categories of scientific research in this country are being rapidly taken over by Jews. The FORTUNE survey, which was based on a study of 89 outstanding young scientists in various fields, disclosed that 52% of those engaged in biological and medical research were Jewish. Since Jews constitute only 3 of 4% of our total population (according to their own estimates, at least), this means that Jews, on a per capita basis, are represented in this field by a 30 to 1 ratio over Gentiles. To put it another way, this country's 5 or 6 million Jews accounted for slightly over 50% of the scientists in this category,

Boasting of . . . "a proud accomplishment", the Brooklyn JEWISH EXAMINER featured the above cartoon to illustrate story on FORTUNE survey.

while 145 million Gentiles accounted for the other 50%. . .

The FORTUNE survey showed Jews to be less dominant in other scientific fields. In physics and psychology they comprised 18% and 17% of the total, while in astronomy and meteorology there were no Jews at all.

This preponderance of Jews in biological and medical research, and their strange absence in the fields of astronomy and meteorology, can undoubtedly be explained in terms of commercial opportunity. In recent years medical re-

(Continued on Page 4, Column 1)

You're not supposed to see the above ads, which appear only in Jewish newspapers. Purpose of these ads is to acquaint Jewish readers with food brands which carry a secret Kosher symbol on their labels. Since it is doubtful if more than one Gentile out of 100,000 reads Jewish newspapers (or even knows of their existence), the Christian majority is totally ignorant of the situation.

Jews Seek To Suppress Facts On Secret Kosher Food Markings

SPECIAL—The AMERICAN NATIONALIST from the time of its inception has steadfastly refrained from criticizing Jewish religious practices, or the Jewish religion itself, out of a very strong conviction that our quarrel with organized Jewry is essentially political in nature. We are fully cognizant of the fact that neither Communism nor Zionism are theological movements (although both are unquestionably Jewish in character) and we know that at least some deeply religious Jews reject Zionism as thoroughly as they do Communism. And so, while we have continuously fought both Communism and Zionism as secular Jewish movements, we have at the same time made it a practice to leave the Jewish religion out of it. That is why, up till now, we have stayed out of the controversy over Kosher food markings. But now the question seems to have spilled over into the political field, and therefore into our province.

It isn't commonly known among Gentiles, but a growing number of the food and household items on the American grocery shelf bear unobtrusive code markings which designate them as "Kosher". The marking usually consists of the letter "U" in a circle. When a food, soap or cleaning product carries this device, it signifies that the manufacturer has complied with Jewish ritual requirements as prescribed by the Union of Orthodox Congregations of America.

Among the food products carrying the secret Kosher mark are: Heinz 57 Varieties, Dromedary (cake mixes, etc.), Hills Bros., Ry-Krisp, Adolph's Meat Tenderizer and many others. Among the soaps, detergents and cleansers featuring the "U" somewhere on their label are: Brillo, Fab, Vel, Glim, Cheer, Dreft, Spic-and Span, Tide, Swerl, Easy-Off, Babo-O, Ajax, Old Dutch Cleanser, etc.

Other products (including Lever Brothers' Spry, Surf and Breeze) carry the letter "K" on the package as an indication of Kosher approval, while some, such as

(Continued on Page 2, Column 1)

Organized Jewry Gives Sanctuary To Red Traitors

SPECIAL—The big problem of how to deal with the menace of Communism in the U.S. remains with us despite the very wholesome action of Congress in outlawing the Communist Party last month. Actually, of course, no one expects Communist activity to cease, or even slow down very much, simply because the Party has been denied legal status. This is because the tiny (25,000 members) Communist organization is not, and has never really been, the prime source of Communist strength in this country.

As a matter of fact the big secret behind the Communist Party's remarkable power to exert influence in this country, despite its minuscule membership, is its abilitly to mobilize the almost limitless resources of organized Jewry to its own ends. For it may truly be said that organized Jewry is the instrumentality through which Communism functions in the United States. Today the more than six million Jews in our midst constitute one of the largest and

(Continued on Page 3, Column 1)

Gerald Smith and Tenney Bid for Power Balance

SPECIAL—In a move which may have profound national significance, Senator Jack B. Tenney and Gerald L. K. Smith last month took the first step toward setting up a balance of power in California politics which, among other things, could affect the next presidential election. Tenney, head of California's Un-American Activities Committee for many years, and Smith, longtime director of the Christian Nationalist Crusade, kicked off the campaign before an overflow crowd of 1800 cheering Nationalists at the Los Angeles Embassy Auditorium on August 18th.

Behind the Smith-Tenney strategy is the knowledge that many candidates in southern California would encounter extremely rough

(Continued on Page 2, Column 1)

PRACTICE RACIAL SELF-RESPECT .... SUPPORT SEGREGATION!

WASHINGTON

Two significant incidents in Congress last month served beautifully to illustrate the treacherous role of organized Jewry in the ideological conflict between Communism and the free world. The first occurred (on Aug. 4th) when the little Brooklyn Jew, "Manny" Celler, spitefully blocked a House resolution to bestow upon General Douglas MacArthur . . . **"the profound gratitude and abiding affection"** . . . of the Congress

CELLER

Ten days later the other side of the coin was revealed when, on the occasion of Vito Marcantonio's demise, one Jew after another (including Celler, Klein and Abe Multer) took to the floor of the House to eulogize their good friend, Marcantonio, as a **". . . truly good American"** . . .

Hatred and calumny for MacArthur; praise and affection for the Communist, Marcantonio — that is the position of organized Jewry. It is also the position of the Communist party.

Gerald Smith and Tenney

(Continued from Page One)

going at the polls if opposed by the Nationalists—especially in the more closely contested races. There is also the knowledge that California may again be a borderline state in future presidential elections, as it was in 1948 when Truman racked up the state's 32 electoral seats by a scant 10,000 votes, and as it was in 1916 when Wilson carried the state (and the election) by 2,000 California votes.

Should that situation reoccur the Nationalists might easily swing the election either way, since southern California is the center of Nationalist strength in the U.S. The big problem is how to weld this strength into a disciplined following—a problem which Smith and Tenney are giving a great deal of thought to. . .

Secret Kosher Symbols

(Continued from Page One)

Borden's products, have the letter "H" (see cut) in a square to identify them as Kosher.

NOTE: The letter "R" in a circle usually denotes a registered trade-mark, while the letter "C" in a circle is a copyright mark. Many cartons also have code letters to designate dates, case lots, etc., which should not be confused with Kosher symbols.

What brought the matter into controversy was a speech by a Mrs. H. D. Strack before the New Jersey Society of the Daughters of the American Revolution (DAR) earlier this year. In her address Mrs. Strack blasted the practice of placing secret Kosher markings on food and household items in no uncertain terms.

"Clandestine Kosher markings on household products," she said, **"symbolizes how a bold minority can impose its will and even its religious observances upon an apathetic majority". . .**

"I leave it to our ministers," continued Mrs. Strack, **"to decide if they want their vestments, alter cloths and communion service washed with a (soap) product upon which another religion has already performed a ritual without their knowledge". . .**

The Jewish reaction to Mrs. Strack's outspoken address was immediate. The Anti-Defamation League of B'nai B'rith (ADL) quickly pressured the DAR into a public disavowal of the speech, and the DAR's New Jersey state regent, Mrs. T. E. Reeves, expressed the Society's **"shock"** and **"regret"** over the incident. . . .

But the matter didn't rest there. Shortly thereafter Mrs. Reeves herself was censured by seven members of the DAR's Board of Governors, who charged that . . . **"the best interests of the Society"** had been disregarded in allowing the speech to be made at all.

And somewhat later another outcome of the so-called anti-Kosher speech was reported by the Jewish Telegraph Agency (JTA), which chortled over the fact that the Carteret (N.J.) Womens Club had cancelled a scheduled speech by Mrs. Strack . . . **"because of pressure from local groups"** . . . By this time Mrs. Strack and the DAR were beginning to learn that one does not criticize organized Jewry with impunity. . .

From all this it is obvious that organized Jewry is not only determined to keep the white Christian majority in this country in ignorance concerning the existence of Kosher food markings, but is also intent on destroying those who dare to discuss the matter.

By taking this stand organized Jewry has once again taken upon itself the prerogative of imposing censorship over free and open discussion. But in doing so it has removed the question entirely from the province of religion, because while no one will deny all religious faiths the privilege of practicing their own customs and rituals, few Americans are willing to grant ANY religious group the absolute right to suppress free speech. When the ADL and other organized Jewish groups proceed to silence and even punish those who dare to reveal the existence of secret Kosher food markings upon the food we eat, they have indeed stepped onto controversial territory.

This is all the more so in view of the policy which Israel pursues toward its own racial and religious minority. It will be recalled that Israel has a minority situation too, since about 10% of its total population is Arab. But Israel does not allow its Arab minority to place its religious symbols or sanction upon food consumed by the Jewish majority. On the contrary the government requires that all butcher shops POST A SIGN signifying whether they are Kosher or non-Kosher. The same law prohibits Gentiles from raising pigs in Israel without a special government permit —and permits are given only in the region of Nazareth, where the population is predominantly Christian Arab. It should also be noted in passing that Israel even prohibits intermarriage between Jews and Gentiles, which will give you an idea of how the Jews of Israel practice religious toleration within their own borders.

SIGNIFICANCE: For our part we feel that the Jews in this country should be compelled to abide by the same rules they have prescribed for the Christian minority in Israel.

Laws should be passed obligating food manufacturers to plainly show whether their product is Kosher or non-Kosher—as they do in Israel.

Prohibitions should be placed upon intermarriage between Christians and Jews—as they have done in Israel.

All immigrants should be barred from this country save members of our own race and religion—as they do in Israel.

And above all, the affairs of this nation should be carried on by, and for the benefit of, the majority—as they are in Israel.

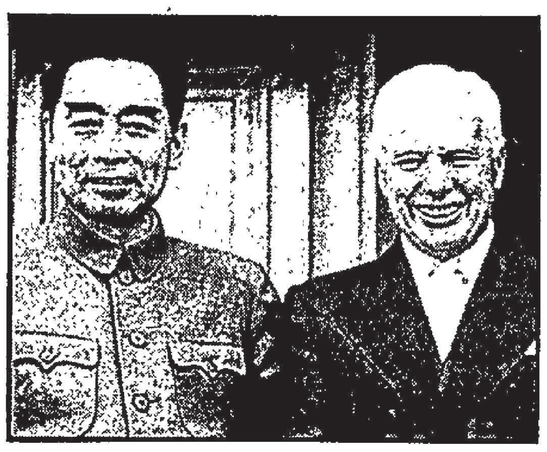
We should, in short, end the type of Jewish tyranny as witnessed in New Jersey, where the proud Daughters of the American Revolution were obliged to grovel before organized Jewry because one of their speakers dared to reveal that many of our food products carry secret Kosher food markings. . .

Hollywood

It is almost axiomatic that wherever you find Jews you find Communism—and wherever you find Communism you find Jews. That explains, better than anything else, why the Hollywood motion picture industry has over the years harbored the highest concentration of Communists and Communist fellow-travelers of any industry in America. Because it is an indisputable fact that the motion picture is, from top to bottom, a Jewish monopoly. With the exception of Howard Hughes' RKO Pictures and Spyros Skouras' 20th Century-Fox, every major studio is owned and controlled by Jews.

Most Americans, however, find it difficult to reconcile the wealth and privilege of Hollywood's Jews with their unmistakable affinity for Communism, finding it inconceivable that a millionaire film producer or screen idol should embrace a philosophy which supposedly is dedicated to the destruction of all wealth and privilege.

Actually, the answer to this apparent contradiction can be found in the fact that Communism is not so much an economic movement as it is a racial affair. The leaders of Russian Communism are today, as they have always been, predominantly Jewish. And while the Communists carry on their program of world conquest under the banner of economic and social reform, it is a serious mistake to judge Communism as a proletarian or workers movement. For it is not the workers, but the leaders, who have benefited from Communism in Russia. And the leaders are, as we have seen, mostly Jews. That is why Hollywood's wealthy and privileged Jews flock so readily to Communism. They are not interested in it because it is a workers' movement, but because it is a Jewish-led program for world conquest. . .



Shown above with Chou En-Lai is Charlie Chaplin (Thonstein), one of the richest Jews ever to come out of Hollywood. Like all Jews, Chaplin supports Communism not because it is a workers' movement, but because it is a Jewish-led movement.

Report On The COLOR FRONT

✓**The NAACP** has designated Sept. of 1955 as the "target date" for voluntary compliance of the nation's schools with the Supreme Court's anti-segregation ruling. After that date the NAACP will take punitive legal action against those who defy the Court's edict. NAACP also plans to step up its campaign against segregation in public transportation, housing and recreational facilities (i.e. parks, playgrounds, swimming pools, etc.) during the coming months.

✓**Rep. Adam Powell,** Negro congressman from Harlem, doesn't like the reception Negro troops are receiving from French women, according to a recent article in the Negro magazine, JET. In an open letter to President Eisenhower, Powell complained that French women have consistently "snubbed" Negroes in the French town of Chateauroux, where a large U.S. airbase is situated. Powell, according to JET, attributed the French attitude to . . . **"a vicious program of racial hatred conducted by white GI's. . ."**

✓**City officials** in Marion, Indiana last month reluctantly opened the city-owned Matter Park swimming pool to non-whites after 11 Negroes brought a $192,500 suit against the city for denying them their **"constitutional rights". . .**

Organized Jewry: Hotbed for Treason

A Privileged Sanctuary For Communist Treason

(Continued from Page One)

most formidable fifth columns in history.

In this respect the situation bears a significant relationship to that which existed in Imperial Russia prior to the 1917 revolution. At that time, it will be recalled, Russia was saddled with the world's largest Jewish population, with almost seven million Jews residing in what was then Russian-Poland and the famed "Pale of Settlement". This vast and restless Jewish minority was the seed-bed and the reservoir of Russian Communism, and it provided virtually the entire leadership for the October Revolution in 1917.

Today, ironically, the U.S. has become the center for the world's Jewish population, and the role of organized Jewry is very much the same here as it was in Czarist Russia 35 years ago—that is to say, it is the seed-bed of Communism in America.

Actually, the relationship of American Jewry to Communism cannot be properly evaluated and understood without some idea as to its organizational structure. Because it is a fact that the Jewish minority is the most highly organized, the most closely knit, the most fanatic and the most energetic of any group in America today. They not only publish a multitude of Jewish newspapers and periodicals, but also maintain a special Jewish Telegraph Agency to service them. They support their own schools, social organizations, fraternal groups, cultural clubs and fund raising units in every city and community where Jews congregate. It is almost impossible for the average American to comprehend the extent to which organized Jewry has established itself in this country. It functions veritably as a nation within a nation.

Perhaps the best capsule description of just how extensively American Jewry is organized is the following, which appears in Encyclopedia Britannica (P. 63d, Vol. 13, 1947 edition):

"American Jewry", says Encyclopedia Britannica, "modeling itself after the structure of the social environment in which it has grown up, is highly organized. If every branch of every lodge were to be included, there would be at least 25,000 individual clubs, societies, groups and synagogues in the United States. Jews are united for purposes of recreation, for hospital and health benefits, for immigrant aid, and for the furtherance of Jewish culture and Jewish education. Extremely numerous are the social and mutual benefit organizations. In all probability the Jews of the United States spend at least $100,000,000 a year to maintain these various agencies."

The $100 million figure given by Encyclopedia Britannica is a prewar estimate, and it is a certainty that the present annual total is several times that. This year, for example, the United Jewish Appeal (UJA) alone is raising $194,921,150 (of which part is in loans), most of which is earmarked for Israel. In addition there are the domestic expenditures of organized Jewry, which unquestionably exceeds $100 million annually — and the Israel Bond Drive, which will raise $75 million this year. And this is only a partial listing.

Depicted above is a partial glimpse of the vast network of Jewish organizations which function as a privileged sanctuary for the Communist conspiracy against the U.S. government. Here's the story behind the pictures:

Last month the Communist daily, "PEOPLE'S WORLD", ran a boxed notice (see inset) announcing that its executive editor, Al Richmond (lower left) would speak at four different locations during the second week of August. (Richmond, it should be noted, is one of the west-coast Communist leaders convicted last year of conspiracy to overthrow the U.S. government.) His announced topic was "McCarthyism and the 1954 Elections", and refreshments and a "cultural program" were featured.

There was nothing in the announcement to indicate the meeting halls were Jewish centers, but a quick check showed that three of the four were in fact Jewish "Cultural Centers", while the exact identity of the fourth could not be established.

One of the Jewish Cultural Centers (the "Misha Yablon", above left) was situated in Hollywood's well-to-do Fairfax section. Another, the "City Terrace Cultural Center" (above right) was located in east Los Angeles while the third (the "West Adams Cultural Center") was in west Los Angeles. Needless to say, the kind of "culture" dispensed at the meetings presided over by Mr. Richmond was strictly of the Moscow variety. . .

It is important to note that this was no isolated case, but rather a typical example of Communism at work. Over the past two years the AMERICAN NATIONALIST has checked on various "cultural" events sponsored by the Communists in the Los Angeles area and almost without exception the participants have been Jewish. As a rule Yiddish is the language most often heard at these affairs, although the "cultural" programs themselves are usually in English.

Nor is Los Angeles the only place where Jewish "Cultural Centers" serve as fronts for Communist activity. A year ago last July, for example, a raid on the "Pittsburgh Jewish Cultural Center" revealed it to be a Communist training school for western Pennsylvania. And last April a similar raid by federal authorities on the "Jewish Cultural Center" in Miami (see American Nationalist, May 10) likewise exposed it as a Communist propaganda headquarters. There have been many other cases; so many in fact that it is difficult to escape the conclusion that organized Jewry is Communism's real fifth-column in America. . .

THE "DEFENSE" AGENCIES

Among its multifarious activities American Jewry also maintains what amounts to a secret police system, with agents in virtually every city and town in America. Altogether there are seven so-called "defense" agencies engaged in sleuthing and propaganda, of which the B'nai B'rith's Anti-Defamation League and the American Jewish Committee are by far the most active.

The primary function of these "defense" agencies is to smother any and all criticism of Jewry, and particularly any evidence linking Jews with Communism. They accomplish this in a number of ways, chief of which is to label as "anti-Semitic" all information and intelligence which in any way reflects on Jewry. They also disseminate vast amounts of "tolerance" propaganda designed to show Jews in a favorable light.

The Anti-Defamation League (ADL) keeps extensive dossiers on all groups and individuals suspected of "anti-Semitic" proclivities, and their files contain the names and records of every individual American with known anti-Jewish sentiments, including those who subscribe to "anti-Semitic" publications. Total announced expenditures of the above described "defense" agencies last year was $5,739,000, which is approximately equal to the pre-war budget of the FBI. Never in the history of this nation, nor of any other nation, has a privately financed Gestapo network operated on anything approaching this scale. . .

PRIVILEGED SANCTUARY

Now it is obvious from even this brief sketch that organized Jewry has the potential of a highly efficient, and a highly dangerous, fifth column. Possessing as it does 25,000 membership organizations, untold financial resources, its own secret police and propaganda agencies and six million or more fanatic adherents, organized Jewry in this country is clearly capable, if utilized as a Communist fifth-column, of wreaking untold damage. And it further qualifies as an ideal base for Communist operations because, unlike the Communist Party, it cannot easily be isolated and outlawed; it is, so to speak, a privileged sanctuary.

THE TIE-IN

This brings us, then, to the final question of the tie-in between Communism and organized Jewry. That there is such a tie-in is indisputable. As a matter of record, the leadership of the American Communist Party has always been predominantly Jewish, as the events of the past ten years clearly illustrate.

JEWISH POLITBURO

For example, when the U.S. government indicted the top eleven officials of the Communist Party (the so-called American Politburo) in 1949, six turned out to be Jews. When this eleven-man Politburo was convicted under the Smith Act, a second-string Politburo took its place. Of its 21 members, 14 were Jewish. Most of these were also convicted of plotting the overthrow of the U.S. govern-

(Continued on Page 4, Column 1)

Organized Jewry

Continued From Page 3

ment. Since then a total of 81 top Communist leaders have been convicted under the Smith Act, of whom well over 60% have been Jews.

JEWISH SPIES

Another index of the Jewish role in the Communist conspiracy against this country is to be found in the spy convictions obtained by the justice department since 1945. Altogether, eleven individuals have been convicted since World War II for espionage activities, of whom ten were Jews*.

Those convicted of espionage activities included the head of the Amerasia ring, Philip Jaffe, and his accomplice, Andrew Roth; it included Judith Coplin, who stole Justice Department secrets for the Russians; and eight members of the Rosenberg spy ring, of whom seven were Jews (i.e. Harry Gold, Abe Brothman, David Greenglass, Miriam Moscowitz, Morton Sobell and the Rosenbergs). Another high ranking espionage agent was the German-Jew, Gerhart Eisler, who fled this country, however, before he could be brought to justice.

COMMUNIST PRESS

Still another index of how deeply the Jews are involved in the Communist conspiracy is their virtual monopoly of the Communist press. Take almost any group of Communist publications you care to name, and the overwhelming majority of its editors, writers and staff will stand revealed as Jews. This is true of the DAILY WORKER, of MASSES & MAINSTREAM, of the MORNING FREIHEIT, of PEOPLE'S WORLD and of every other prominent Communist organ. There are few if any exceptions.

OVERWHELMING PROOF

This, of course, is only a fraction of the evidence, but it is evidence which cannot be refuted. No person who has studied the Communist conspiracy at close range can escape the conclusion that it is a Jewish-led movement. The proof is too compelling, too overwhelming. And the fact that the American public is generally unaware of all this is due to no lack of evidence on the subject, but rather to the dreadful power of organized Jewry to suppress the true facts of the case under the guise of combatting "anti-Semitism". It is this capacity of organized Jewry to successfully label and discredit those who reveal the connection between Communism and Jewry as "anti-Semites", that makes the problem so difficult. Not until the true relationship between organized Jewry and Communism is clearly understood will we be able to effectively meet the deadly threat now facing us.

Jew Scientists

(Continued from Page One)

search has proven a lucrative field for commercial exploitation, and the discovery of a new vaccine, antibiotic or drug compound has frequently been the basis for a multi-million dollar industry. As a matter of fact a multitude of business enterprises have mushroomed into existence as the result of simple laboratory discoveries—as in the case of penicillin, aureomycin, the sulpha compounds and literally hundreds of other so-called wonder drugs. And the lucky discoverer of one of these magic drugs often is the recipient of fame, fortune and business opportunity—a fact which quite obviously explains why so many Jews are flocking to the field of medical and biological research.

But scientific research in other fields, such as, for example, meteorology or astronomy, offers no such prospect for commercial exploitation. There are, therefore, no Jews to be found in these fields at all. There you find only Gentiles; men who are interested in scientific research for its own sake rather than for the commercial opportunities it might offer...

This tendency of the Jew to take over and commercialize the various professions represents a problem of growing seriousness for this country. As a point of fact the AMERICAN NATIONALIST has on a number of occasions (see June 25, 1953) already emphasized the fact that this nation's professional schools are seriously infested with vast numbers of eastern European Jews who, in some cases at least, literally monopolize their chosen field.

B'NAI B'RITH STATISTICS

Statistics published in 1948 by the B'nai B'rith Vocational Service Bureau* (based on a 1935 survey of the nation's colleges and professional schools) bear this out. They showed, for instance, that 45.1% of the nation's optometry students were Jewish; that 26.4% of the dental students, 22.3% of the pharmacy students and 25.1% of the law students were of the same race. Needless to say, these are the professions which lend themselves most readily to commercial exploitation.

By contrast, the same survey showed that only 3.1% of those majoring in education were Jewish. In other words the teaching profession, noteworthy for its poor monetary rewards, was 97% Gentile. Other low paying professions showed a similar scarcity of Jews.

SIGNIFICANCE: It goes almost without saying that any profession attracting large numbers of Jews almost invariably falls under their control. The medical profession, where Jews probably constitute not more than 20% of the total, provides an excellent example of a field which is in fact Jew-dominated. Other professions are similarly blighted. In most instances it is not the mere weight of numbers, but rather the Jew's ability to capitalize upon the commercial end of things which has given them a strangle-hold over many of our professions.

Meanwhile, the problem of how to deal with this massive Jewish encroachment has not yet been resolved, but until it is resolved the cream of our nation's youth will continue to be denied the opportunities and privileges which are rightfully theirs. The FORTUNE survey, which revealed that 52% of the "outstanding young scientists" engaged in medical and biological research were Jewish, is a prime example of what we mean. And so long as our professions (and professional schools) are flooded with hordes of eastern European Jews, all eagerly intent on reaping a financial harvest from their chosen profession, then so long will the problem remain with us. And underlining the seriousness of that problem is the question it poses: the question of how long this nation, or any nation, can retain its national integrity and vitality with its arts, sciences and professions in the hands of alien Jews. . .

Press Report

FORT MONMOUTH—The U.S. Army has rejected charges brought by the Anti-Defamation League of B'nai B'rith (ADL) that "anti-Semitism" figured in the discharge of security risks at Fort Monmouth. The ADL complaint was based in part on the fact that 38 out of the 42 civilians discharged from the base were Jews. According to the Associated Press report (Aug. 27), ADL officials also claimed that . . . "a key security officer at the installation was personally anti-Semitic". The Army refuted the complaint after an investigation showed the charges to be false.

SPECIAL—The National Council of Churches, which reports regularly on the membership status of the various religious denominations in its annual yearbook, reveals that Jewish congregations in this country now number 5,000,000. This means the total Jewish population is considerably larger than organized Jewish groups admit, since many Jews (possibly a third) do not attend synagogue at all.

WASHINGTON—Rep. John Tabor, chairman of the House Appropriations Committee, and strong advocate of governmental economy, was sharply condemned by the Jewish press last month for daring to criticize the state of Israel. The incident occurred while Tabor's committee was holding hearings on the question of foreign aid to Israel. At one point, according to the Jewish Telegraph Agency (JTA), Rep. Tabor interrupted foreign-aid administrator Harold Stassen to ask: "Are those people (i.e. the Jews) working over there?" At another point Tabor expressed the opinion that Israel's Jews should . . . "have a better attitude toward a country like the United States which is doing so much for them" . . . (NOTE: Rep. Tabor's remarks were probably inspired by Israel's parasitic economic policy. In 1953 Israel's imports totaled $338 million, while exports amounted to only $76 million. The deficit was made up by U.S. foreign aid plus aid from Jews abroad.)

SPECIAL—"Doctor" Otto John, the British-sponsored chief of West-Germany's secret police who recently fled to eastern Germany, has probably been a Communist since about 1935, according to an account carried in U.S. NEWS & WORLD REPORT. John, incidentally, fled from Germany after being implicated in the bomb-plot against chancellor Hitler in 1943. After the war John, who is a sex pervert, aided in the prosecution of the German "war criminals" at Nuremberg. Later, as chief of the West-German secret police organization he was instrumental in creating much of the scare-propaganda about the alleged (and imaginary) resurgence of "neo-Nazism" in post-war Germany.

NEW YORK—The Jewish War Veterans (JWV) has vehemently demanded that the Associated Press "admit its error" and retract its story to the effect that the JWV was in any way represented at the testimonial dinner held for Roy Cohn on July 28th. Like all anti-Communist Jews, Cohn is regarded as a renegade by organized Jewish groups such as the JWV. . .
